

# Kawasaki Versys - Welcome to the site !

Contributed by Admin  
Sunday, 13 August 2006

This fantastic bike made it's debut in November 2006 as one of the new models in Kawasaki 2007 line up - a 650 cc parallel twin that evolved from the ER-6. The name is a shortened version of "versatile system" - an attribute that sums up this brilliant bike. If you are thinking of buying this new Kawasaki motorcycle then this site is aimed at you ! The site aims to be a resource where owners can discuss issues with others in the ' Forums ', take a look at the photos in the 'Gallery' and generally find out more about the Versys.Although based in the UK the site welcomes bikers from Europe and beyond - a truly international site.Anyone is welcome to 'Register' so join up today !CheersSite Admin
